Home Agent's Notes

By Mrs. B. G. Anderson
Appomattox Home Agent

The annual Extension Workers' Conference is scheduled to be held at V. P. I. next week, August 22-26. County Extension workers are expected to attend.

Fifteen of the seventeen home demonstration clubs have held recreational meetings, with a picnic supper or lunch for all members of their families and friends in their respective communities. Each group reports a wonderful time, and a bountiful supply of good eats.

A special interest and work shop on restyling hats will be held on Tuesday, September 6, at the home agent's office. Miss Iva Byrd Johnson, Extension Clothing Specialist, will be here to assist members with their hat remodeling problems. Miss Johnson gives this preview of hat styles for fall, 1955: "Toques, cloches, berets, turbans; fuller or little more size in crown and brim but not bulky, are colorful; brilliant greens, bright blues, rich reds, and warm cognac tones. Green and blue often combined. A touch of black, in ribbon detail, usually. Plush felt, polished velours, velvet and satins are shown. Felt and satin combined in matching or contrasting satins. Hats are placed on head toward back with brow free and head well covered. Many draped effects to gain bulkier look. The small, straight-on hats have more depth to side. Side sweep used most effectively on soft brims or deep cloches. Fur hats are in variety; leopard, mink, white beaver and Persian lamb worked into neat toques and soft berets. If worn with fur coats, they are selected to contrast. For example, a black seal coat with a leopard hat. Hats made of large plaid wool blanketing, a novelty. Little trim is used on hats this season, just a cord, ribbon band or one huge jeweled ornament."

Be sure and attend the hat restyling clinic if you have hat problems.

The State 4-H Electric Congress is being held in Richmond on September 1-2. In addition to the two county winners, Winifred Lee and Gene Carson, announced last week, we have been notified that Shawn Mabley and Billy Carson have been invited to attend and assist with the program. Both Shawn and Billy have attended the Electric Congress as county winners in previous years. The 4-H members attending from the county will assist in putting on an exhibit representing the activities and accomplishments carried by approximately 580 boys and girls enrolled in the 20 4-H clubs in the county during 1955.

Aftermath of 1954 Connecticut tornado

Storms don't bother to knock!

Disasters rarely give a warning "knock" before they strike. The 1954 tornado which leveled the house above, is a first rate example. To the unprepared farmer such unforeseen events can mean the end of a farm. That's why smart farmers today are putting their money into U. S. Series "E" Savings bonds.

By putting part of your earnings into Bonds, you save *systematically* against such disasters . . . and *for* such "fair-weather" expenses as general farm improvements, the youngsters' education, vacation, and eventual retirement.

Remember—every $300 you put into Savings Bonds now will grow into $400 in nine years and eight months . . . and into $538.72 in ten years more!

The place to buy them? Your bank!

Make a down payment on your dreams. Buy United States Savings Bonds today!

SERIES "H"
CURRENT INCOME SAVINGS BONDS
Series "H" offers an ideal savings plan for those who want interest paid by check every 6 months. Interest is paid at an ascending rate, with an overall yield of 3% for 9 years 8 months.

BELIEVE THIS OR NOT

Yucaipa, Cal.- L. L. Nichols, poultryman, is responsible for this one. He says he has a hen which did not lay on egg for 30 days, and then, in one week, she laid 28 eggs. One each of two days she laid a half dozen.

The White House has announced that President Eisenhower signed in Geneva a law restricting the filing of mining claims to bona fide mining ventures.

New Bulletins Are Available

Bulletin 473 is a study of how farm owners acquire their farms. This will be interesting to farm boys who are interested in buying or securing a farm of their own. It represents a study carried out in Culpeper and Orange Counties to determine how 160 farm owners acquired their farms. The study shows among other things, that family assistance played an important role in helping about two-thirds of the present farm owners to acquire ownership.

Bulletin 227, Nut Trees and Home Plants, gives information that will enable home growers to produce better crops of nuts.

Bulletin 224, Outside Meals, says outside eating is fun, cooking out is easy if you learn to prepare a few simple things and to collect simple equipment.

Circular 569, Sub-Soiling in Virginia and Other States. Many farmers ask questions, such as Does Sub-Soiling Pay? This circular summarizes the available information on Sub-Soiling. The conclusions are based on actual tests, or on observations made by recognized agricultural scientists in Virginia and many other states.

Circular put out by the Dairy Department, V. P. I., entitled, "Want To Be A DHIA Supervisor?" This gives the opportunities available, qualifications, requirements, procedure, and the salary. Those interested in becoming a DHIA Supervisor are requested to stop by the county agent's office and pick up a leaflet for study.

Bulletin 229, entiled Farm Record, just released, is an excellent bulletin prepared for farm families who are interested in keeping a record of farm receipts and farm expenditures.

On The Job

"Mary," said the mistress, "will you fetch the letter which I left on my dressing table this morning?"

"Yes, mum. Er—which one do you want? The one about your sister's baby or the one from the income tax collector?"

The Federal Court of Appeals has ruled that refusal to deny membership in a subversive organization is not a ground for eviction from Government housing projects.
